# Transform your World

## Preliminary outcomes of the sessions (until 14:30)

Participants to “Transform Your World” are **already contributing** to the SDGs in many ways. Today, they had the opportunity to **find partners** they need to contribute even more or better to the SDGs. During the workshops, participants identified shared aims and agreed on **joint actions** towards the SDGs. These are reported below as a **basis for follow-up** by themselves, facilitated by the SDG Charter. This overview reflects the outcomes of today’s sessions, without being comprehensive. The list remains **open** for adjustments and additions. In the course of 2017, the SDG Charter will offer participants online and offline ways to continuously **share** both their existing and new activities on the SDG’s, **discuss progress**, learn from each other and agree on the **next steps**.

| Session & related SDG                | Shared aims   | Joint actions / next steps (lead organization between brackets)   |
|--------------------------------------|---|---|
| Poverty<br>                          | Reduce poverty in NL:<br>Improve inclusion in NL:   | We will always include the voices of our target groups in our cities  |
| Sustainable Agriculture and Food<br> | Create a science-based vision, definition and actions for sustainable food and agriculture:                                 | Explore SDG Charter Food partnership with 25+ organisations (Natuur&Milieu, TruePrice, Unilever, HAS, EZ, Rijnconsult, and many others)   |
| Water<br>                            | Improve biological water quality in NL and share knowledge worldwide:   | Strengthen cooperation between the different waterpartners in the NL and explore the worldwide knowledge and action available (Global Compact Network Netherlands)  |
| Health<br>                           | Improve primary health care in Africa:  | Expand partnering for simple, cost effective, sustainable solutions for water, waste management, vaccines and adolescence health challenges related to Community Life Centers (Philips)   |
| Gender<br>                           | Improve gender equality and realize universal access to sexual and reproductive health and rights in NL and internationally | Facilitate follow-up meeting(s) for concretizing actions and recommendations to implement SDG 5 in NL and internationally (Wo=Men and Rutgers)  |
|                                      | Bridge the data gap of the CBS:   | Link existing data on gender equality to CBS (Rutgers)  |
| Cities<br>                           | Sustainable solutions for rapid urbanization:   | Expand Human Cities Coalition (Human Cities Coalition)  |
| Energy<br>                           | Increase share of renewables in NL:   | Follow up workshop on integrating One Planet Thinking in organizations (IUCN NL and Eneco)  |
| Circular economy<br>                 | Minimizing waste in material, economic and social context:<br>Contribute to SDGs 1, 2, 3, 4, 6, 7 and 9:                    | Integrate CE in education; Create new examples (e.g. Leeuwarden Cultural Capital 2018 circular); Internalising costs in pricing; Expand the network ‘NLCirculair’ (MVO Nederland); Link various initiatives in order to reinforce each other (RVO/ I&M); Green Deal Circulair Inkopen |
| Perspective in the region<br>        | Morning: Positive action for refugees in NL:  | Future proof inclusive reception of refugees in NL (Plan Einstein, Utrecht) and in the region (Project Greenfields)   |
|                                      | Afternoon: Education, jobs, social cohesion in areas with large refugee inflow:   | Expand partnership in Istanbul (LIFTcities)   |
| Finance<br>                          | More SDG coherent financing (morning)   | Scale SDG-I initiative  |
|                                      | More SDG coherent financing (afternoon)   | Partnership to align tax, divestment and investment with SDGs   |
| Data                                 | Showcase, understand and track progress on SDG implementation:  | Identify an SDG reporting approach for organizations and partnerships that works for them and works to keep track   |
| Communication                        | Improve SDG knowledge in Dutch politics:  | Masterclass for (new) politicians (Alliance)  |
|                                      | SDG awareness raising, sustainable lifestyle and behavioral change  | Communication partnership (Global Goals Accelerator)  |
|                                      | Online sharing of contributions to SDGs:  | SDG Charter will work with others to facilitate this (SDG Charter)  |
| Learning                             | Increased understanding of partnerships:  | Workshops on partnerships and innovative financing (PrC, EUR)   |
